A History of Barbados-Hilary McD. Beckles 2006-11-16 Highly acclaimed when it first appeared in 1990, this general history of Barbados traces the events and ideas that have shaped the collaborative experience of all the islands inhabitants. In this second edition, Hilary Beckles updates the text to reflect the considerable number of writings recently published on Barbados. He presents new insights and analyses key events in a lucid and provocative style which will appeal to all those who have an interest in the island's past and present. Using a vigorous approach, Hilary Beckles examines how the influences of the Amerindians, European colonisation, the sugar industry, the African slave trade, emancipation, the civil rights movement, independence in 1966 and nationalism have shaped contemporary Barbados.

The History of Barbados-John Poyer 1808

The First Black Slave Society-Hilary Beckles 2016 In this remarkable exploration of the brutal course of Barbados's history, Hilary McD. Beckles details the systematic barbarism of the British colonial project. Trade in enslaved Africans was not new in the Americas in the seventeenth century - the Portuguese and Spanish had commercialized chattel slavery in Brazil and Cuba in the 1500s - but in Barbados, the practice of slavery reached its apotheosis. Barbados was the birthplace of British slave society and the most ruthlessly colonized. The geography of Barbados was ideally suited to sugar plantations and there were enormous fortunes to be made for British royalty and ruling elites from sugar produced by an enslaved, "disposable" workforce, fortunes that secured Britain's place as an imperial superpower. The inhumane legacy of plantation society has shaped modern Barbados and this history must be fully understood by the inheritors on both sides of the power dynamic before real change and reparatory justice can take place. A prequel to Beckles's equally compelling Britain's Black Debt, The First Black Slave Society: Britain's Barbarity Time in Barbados, 1636-1876 is essential reading for anyone interested in Atlantic history, slavery and the plantation system, and modern race relations.

A True and Exact History of the Island of Barbados-Richard Ligon 2011-09-12 Ligon's True and Exact History of the Island of Barbados is the most significant book-length English text written about the Caribbean in the seventeenth century. [It] allows one to see the contested process behind the making of the Caribbean sugar/African slavery complex. Kuperman is one of the leading scholars of the early modern Atlantic world. . . . I cannot think of any scholar better prepared to write an Introduction that places Ligon, his text, and Barbados in an Atlantic historical context. The Introduction is quite thorough, readable, and accurate; the notes [are] exemplary! --Susan Parrish, University of Michigan

The History of Barbados; Comprising Geographical and Statistical Description of the Island; a Sketch of the Historical Events Since the Settlement; and an Account of Its Geology and Natural Productions-Robert Hermann Schomburgk 1848

True and Exact History of the Island of Barbadoes-Richard Ligon 1673 In this eye-witness history of Barbados, Ligon gives perhaps the earliest account of attempts at sugar manufacture. His description of a plantation indicates the size and complexity of the estates acquired in Barbados by subtle and greedy' planters, even in the early days of the industry.

Empire and nation-building in the Caribbean-Mary Chamberlain 2013-07-19 This original and exciting book examines the processes of nation building in the British West Indies. It argues that nation building was a more complex and messy affair, involving women and men in a range of social and cultural activities, in a variety of migratory settings, within a unique geo-political context. Taking as a case study Barbados which, in the 1930s, was the most economically impoverished, racially divided, socially disadvantaged and politically conservative of the British West Indian colonies, Empire and nation-building tells the messy, multiple stories of how a colony progressed to a nation. It is the first book to tell all sides of the independence story and will be of interest to specialists and non-specialists interested in the history of Empire, the Caribbean, of de-colonisation and nation building.

Searching for a Slave Cemetery in Barbados, West Indies-Jerome S. Handler 1989

A History of Barbados, 1625-1685-Vincent Todd Harlow 1969

Englishmen Transplanted-Larry Dale Gragg 2003 "Larry Gragg challenges the prevailing view of the seventeenth-century English planters of Barbados as architects of a social disaster. Most historians have described them as profligate and immoral, as grasping capitalists who exploited their servants and slaves in a quest for quick riches in the cultivation of sugar. Yet they were more than rapacious entrepreneurs. Like English emigrants to other regions in the empire, sugar planters transplanted many familiar governmental and legal institutions, eagerly started families, alided by traditional views about the social order, and resisted compromises in their diet, apparel, and housing, despite their tropical setting. Seldom becoming absentee planters, these Englishmen developed an extraordinary attraction to Barbados, where they saw themselves, as one group of planters explained in a petition, as 'being Englishmen transplanted'"--BOOK JACKET.

Independence and nationhood, though critical centuries of grassroots struggle. Democracy in Barbados, he argues, as a social, political and cultural reality, has its origins principally within working class demands for freedom, justice and equality and not as a bestowal upon the masses by elites at moments of imperial and colonial enlightenment. In the second volume of his trilogy, Great House Rules, Landless Emancipation and Workers’ Protest in Barbados 1838-1938, Prof. Beckles convincingly shows that for the first one hundred years after Landless Emancipation and Workers' Protest in Barbados 1838-1938, Prof. Bea...
America. Enslaved Africans in Barbados were deployed in radically new ways in order to cultivate, process, and manufacture sugar on single, integrated plantations. This Barbadian system informed the development of racial slavery on Jamaica and other Caribbean islands, as well as in South Carolina and then the Deep South of mainland British North America. Drawing on British and West African precedents, and then radically reshaping them, Barbados planters invented a new world of labor.
