Higher Engineering Mathematics - John Bird 2017-04-07 Now in its eighth edition, Higher Engineering Mathematics has helped thousands of students succeed in their exams. Theory is kept to a minimum, with the emphasis firmly placed on problem-solving skills, making this a thoroughly
A practical introduction to the advanced engineering mathematics that students need to master. The extensive and thorough topic coverage makes this an ideal text for upper-level vocational courses and for undergraduate degree courses. It is also supported by a fully updated companion website with resources for both students and lecturers. It has full solutions to all 2,000 further questions contained in the 277 practice exercises.

**Construction Mathematics** - Surinder Virdi 2014-03-21

Construction Mathematics is an introductory level mathematics text, written specifically for students of construction and related disciplines. Learn by tackling exercises based on real-life construction maths. Examples include: costing calculations, labour costs, cost of materials and setting out of building components. Suitable for beginners and easy to follow throughout. Learn the essential basic theory along with the practical necessities. The second edition of this popular textbook is fully updated to match new curricula, and expanded to include even more learning exercises. End of chapter exercises cover a range of theoretical as well as practical problems commonly found in construction practice, and three detailed assignments based on practical tasks give students the opportunity to apply all the knowledge they have gained. Construction Mathematics addresses all the mathematical requirements of Level 2 construction NVQs from City & Guilds/CITB and Edexcel courses, including the BTEC First Diploma in Construction. Additional coverage of the core unit Mathematics in Construction and the Built Environment from BTEC National Construction, Civil Engineering and Building Services courses makes this an essential revision aid for students who do not have Level 2 mathematics experience before commencing their BTEC National studies. This is also the ideal primer for any reader who wishes to refresh their mathematics knowledge before going into a construction HNC or BSc.

My Knitted Doll - Louise Crowther 2016-10-24 Create twelve dolls and over fifty garments and accessories to dress them in with this wonderful collection, featuring easy-to-follow instructions. Make an adorable, knitted doll for the little person in your life. Children will love all twelve dolls in this knitting pattern collection which has been designed to provide the perfect playmate. Each doll has their own personality and style—whether it’s Faye with her cute bunny ear hast and cozy boots, or Jane with her chic beret and Breton top. There is a doll here to suit everyone. The step-by-step
instructions show you how to make the twelve individual dolls, but you could also mix and match the outfits, hairstyles, and colors to create the perfect doll for you. My Knitted Doll is not for the absolute beginner knitter but will appeal to knitters who do have a basic understanding of the craft. Having said that, the instructions are presented succinctly with easy-to-follow diagrams, with charts for intarsia and other designs.

**Electronics**-Owen Bishop 2010-12-30 Owen Bishop’s First Course starts with the basics of electricity and component types, introducing students to practical work almost straight away. No prior knowledge of electronics is required. The approach is student-centred with self-test features to check understanding, including numerous activities suitable for practicals, homework and other assignments. Multiple choice questions are incorporated throughout the text in order to aid student learning. Key facts, formulae and definitions are highlighted to aid revision, and theory is backed up by numerous examples within the book. Each chapter ends with a set of problems that includes exam-style questions, for which numerical answers are provided at the end of the book. This text is ideal for a wide range of introductory courses in electronics, technology, physics and engineering. The coverage has been carefully matched to the latest UK syllabuses including GCSE Electronics, GCSE Design & Technology, Engineering GCSE and Edexcel’s BTEC First in Engineering, resulting in a text that meets the needs of students on all Level 2 electronics units and courses. Owen Bishop’s talent for introducing the world of electronics has long been a proven fact with his textbooks, professional introductions and popular circuit construction guides being chosen by thousands of students, lecturers and electronics enthusiasts.

**Travel & Tourism**-Gillian Dale 2007 Part of the "BTEC National Travel and Tourism Book 2", this second edition is designed to match Edexcel's specification. It provides information to cater for students of mixed abilities through differentiated achievement targets of Pass, Merit and Distinction. It also includes practice assignments and case studies.
