Case Studies in Food Retailing and Distribution

Case Studies in Food Retailing and Distribution - John Byrne 2018-11-05

The two-volume set IIFP ACT 513 and 514 constitutes the refereed proceedings of the International IIFP WG 5.7 Conference on Advances in Production Management Systems, APMS 2017, held in Rosenheim, Germany, in September 2017. The 121 revised full papers presented were carefully reviewed and selected from 163 submissions. They are organized in the following topical areas: advanced manufacturing system organization; product and asset life cycle management in smart factories of Industry 4.0; cyber-physical (cPS) technology designs in smart manufacturing systems; multi-disciplinary collaboration in the development of smart products and processes; reliability-aware IT infrastructure for cyber-physical systems; the major challenges in digitalization and maintenance solutions; open and distributed planning, scheduling and control; supply chain design; production management in food supply chains; factory planning; industrial and other services; operations management in enterprise resource planning; computer-aided design; food product design; and eco-efficiency in the food manufacturing processes.

Linking Smallholder Producers to Modern Agri-Food Chains: Case Studies from South Asia, Southeast Asia and China

Vijay Paul Sharma 2013-05-05

This book explores the challenges of sustainable agri-food chain supply, and presents and discusses nine cases of organizational innovation, covering different phases of food production and facing different challenges, by proposing alternative models to the traditional paradigms of scale and leverage to design supply chain in these industries.

Trade and Competitiveness in Argentina, Brazil and Chile Not as Easy as A-B-C

P. Thorvald 2018-08-29

The urgent need to keep pace with the accelerating globalization of manufacturing in the 21st century has produced rapid advancements in research and practice, and this book presents the proceedings of the 16th International Conference on Advanced Manufacturing Research incorporating the 33nd National Conference on Manufacturing Research (ICMAR 2018), held in Skidrane, Sweden, in September 2018. The aim of the conference is to create a friendly and inclusive environment, bringing together researchers, academics and industrialists with practical and theoretical knowledge to share and discuss emerging trends and new challenges. The book is divided into 12 parts, covering aspects such as the following: manufacturing processes; product design and development; smart manufacturing and lean, among others. Covering both cutting-edge research and recent industrial applications, the book will appeal to all those with an interest in recent advances in manufacturing technology.

Global Human Resource Management

Duygu Fırat 2019-12-18

Businesses are important for economic development of nation and increasing of living standards of people. Also, management is a critical factor for both businesses because it creates utility for businesses. All the success and failure depend upon business functions and management. In this context, this content holds important factors of business management.
